CLS

COMMERCIAL LASER SOLUTIONS

CAPABILITY STATEMENT

Precision Laser Cleaning

Graffiti removal · Surface restoration · Industrial maintenance

ABOUT US

Commercial Laser Solutions (CLS) provides precision laser cleaning services for graffiti removal, surface restoration and industrial maintenance across Sydney and greater NSW. Using high-powered laser ablation, CLS removes graffiti, mould, soot and coatings from a wide range of surfaces without chemicals, abrasive media or water.

3000W	CONTINUOUS-WAVE LASER SYSTEM	**Zero**	CHEMICALS, MEDIA OR WATER	**IEC 60825.1**	LASER SAFETY STANDARD

CORE SERVICES

01 Graffiti Removal

02 Mould & Mildew Remediation

03 Soot & Fire Damage Restoration

04 Rust & Corrosion Removal

05 Coating & Paint Stripping

06 Industrial Surface Preparation

WHY LASER CLEANING

Chemical & Water-Free Process

No wastewater or trade-waste approval needed. No liquid waste generated.

No Hazardous Waste

No solvents, acids or chemical disposal obligations.

Zero Substrate Damage

Energy tuned to the contaminant layer only, with no etching, pitting or coating loss.

Fast, Low-Impact Mobilisation

Dry process with minimal setup and no drying time required.

WHERE WE WORK

Local Government · Public Infrastructure · Strata & Body Corporate · Commercial · Industrial

The Technology

CLS operates a 3000W continuous-wave laser cleaning system. The laser ablates the contaminant or coating layer directly off the substrate using focused light energy, without water, chemicals or abrasive media used or generated as waste. The process is dry, precise and controllable.

Safety & Compliance

- ✓ Class 4 laser operated to AS/NZS IEC 60825.1
- ✓ Site-specific SWMS incl. public exclusion zones & signage
- ✓ Trained, laser-safety-certified technicians
- ✓ WHS policy & risk assessments on request
